

Nurse Residency Program

Graduation is fast approaching and we know you are very busy completing your preceptor clinical, exams and preparations for graduation. But, most of all, securing your first Registered Nurse position that will be a smooth transition from Student Nurse to Registered Nurse.

As you take your first step in your professional nursing career, BRG wants to support you in your journey by offering a stellar opportunity, through our Nurse Residency Program, to become a BRG Professional Nurse. The Nurse Residency Program is based on "best practice" from national policy makers such as National Council of Nursing Boards, Commission on Collegiate Nursing Education and Institute of Medicine.

The objective of the program is to enable you to develop from an advance beginner into a competent professional nurse. The 10-month program will provide evidenced based curriculum & support the new nurse to a competent level of practice. The program is structured to help you develop in the areas of: Leadership, quality outcomes, informatics, communication and conflict resolution.

If you would like more information regarding nursing opportunities at the BRG and other new grad incentives, please contact:
